

PTSD & Tobacco Cessation: Trauma-Informed Care to Support Tobacco Cessation in Individuals Diagnosed with PTSD

Wednesday, November 13, 2019 3:00 - 4:00 p.m. ET

Webinar Presenters:

Taslim van Hattum, LCSW, MPH, is a Director of Practice Improvement at the National Council for Behavioral Health. She serves as the Program Director on various CDC-funded initiatives including the National Behavioral Health Network for Tobacco & Cancer Control. Taslim brings over a decade of experience to her work including leading behavioral health integration with community-based health care providers to implement innovative and evidence-based models of primary health care, behavioral health care, reproductive health and social services integration.

Karen Johnson, MSW, LCSW, is a Consultant for Trauma-Informed Services at the National Council for Behavioral Health. She has 20 years of experience of working in child welfare and community-based mental health. Karen is certified in the ChildTrauma Academy's Neurosequential Model of Therapeutics. Karen is also a parent of an adult child with severe and chronic mental illness.

Dana Lange serves as Project Manager of Practice Improvement and Consulting at the National Council for Behavioral Health. Her past and current portfolio include projects related to rural health care integration, addressing health disparities, health care financing and adolescent substance use. Prior to joining the National Council, Dana held positions in state government, public affairs and the non-profit field in Madison, WI and Washington, DC. Dana holds a Bachelor of Arts dual degree in Political Science and Sociology from the University of Wisconsin-Madison and is currently pursuing a Master of Science degree in Health Care Management from Johns Hopkins University.
