Taking Mental Health and Substance Use Organizations Tobacco-free

Resource List

Transitioning to a tobacco-free organization is not always easy, but it is possible. Fortunately, many resources are available to help support mental health and substance use (MH/SU) organizations that are planning for and/or moving toward a tobacco-free campus policy.

This Resource List provides a digest of available resources from national and state-based organizations, as well as MH/SU organizations across the country.

These tools are compiled so that you can have examples, build on successes already implemented in the field and feel supported through the many steps in taking your facilities tobacco-free.

EIGHT TRUTHS ABOUT CHANGE (Aaron and Nelson, 2008)

- 1.** Organizations change when people change.
- 2.** Resistance is inevitable.
- 3.** Commitment to the past hinders change in the future.
- 4.** Connecting to the head and the heart builds commitment.
- 5.** A leader's actions speak louder than words.
- 6.** Effective communication demands quality and quantity.
- 7.** People support what they create.
- 8.** Sustaining change takes support and reinforcement.
